

# Pathfinding

## TEAM TYPE

**FAST-PACED | GOAL-ORIENTED | COMPETITIVE**

Your team can be described as "relentless." Conflict is frequent, with each person championing their point of view. Fortunately, you see conflict as valuable—it forces you to challenge each other and think differently. You don't always take time to coordinate with one another before acting, and this can lead to poor cooperation. Team members share resources but may not stop to think what others actually need.
